245 acres of the most fertile lands in Middle Tennessee, just off Lebanon Pike, adjoining State Lands at the Hermitage. Fine Oiled roads and all advantages for marketing products. 185 acres high class, better than the average, first and second river bottoms in cultivation, 25 acres in orchard, balance in blue grass and woodland. Plenty of fresh, running, everlasting water. Near good schools and churches.

Did you ever stop to figure the real advantages of being located within less than an hour's time from the best market in the country for all farm products? That is a big item to be considered.

Old-time free barbecue and other refreshments served on the ground. Everybody come.

## A FAMILY MEDICINE

In Her Mother's Home, Says This Georgia Lady, Regarding Black-Draught. Relief From Headache, Malaria, Chills, Etc.

Ringgold, Ga.—Mrs. Chas. Gaston, of this place, writes: "I am a user of Theford's Black-Draught; in fact, it was one of our family medicines. Also in my mother's home, when I was a child. When any of us children complained of headache, usually caused by constipation, she gave us a dose of Black-Draught, which would rectify the trouble. Often in the Spring, we would have malaria and chills, or troubles of this kind, we would take Black-Draught pretty regular until the liver acted well, and we would soon be up and around again. We would not be without it, for it certainly has saved us lots of doctor bills. Just a dose of Black-Draught when not so well saves a lot of days in bed."

Theford's Black-Draught has been in use for many years in the treatment of stomach, liver and bowel troubles, and the popularity which it now enjoys is proof of its merit.

If your liver is not doing its duty, you will suffer from such disagreeable symptoms as headache, biliousness, constipation, indigestion, etc., unless something is done, serious trouble may result.

Theford's Black-Draught has been found a valuable remedy for these troubles. It is purely vegetable, and acts in a prompt and natural way, regulating the liver to its proper functions and cleansing the bowels of impurities. Try it. Insist on Theford's, the original and genuine. 279

## AN IDEAL EDITOR.

A friend hands in the following taken from the Florida Standard. The friend has evidently lived long enough to learn that because a man happens to be an editor of a newspaper he is not supposed to be omnipotent and infallible, but is just another piece of humanity dashing out the news to his readers as he is able to obtain it, but here's the Standard's sentiment:

Wanted: An editor who can read, write and argue politics, and at the same time be religious, funny, scientific and historical at will; write to please everybody; know everything without being asked or being told; always have something good to say about everybody else, live on wind, and make more money than enemies. For such a man a good opening will be made (in the graveyard.) He is too good to live.
